

ENVIRONMENTAL AND ENERGY POLICY

Knowing that the sustainable growth, which we have placed in the main axis of our business, is only possible as long as we maintain the sustainable environmental and energy principles, we aim to:

- Use natural resources efficiently, increase recycling and recovery rates,
- Consider energy efficient and environmentally friendly technologies while creating all processes starting from the designing phase,
- Develop and implement energy efficiency projects that will have a positive impact on climate change,
- Purchase products, services and technologies that provide energy efficiency to support high performance designs,
- Perform our production activities by implementing Environment and Energy Management Systems

In this direction we declare and undertake:

- To comply with environmental and energy related legal and other requirements in force,
- To continuously enhance and improve our environmental and energy performance,
- To take the necessary precautions to reduce or eliminate the negative environmental impacts of our activities,
- To review pre-determined objectives and targets periodically and to provide required resources to achieve these goals and objectives,
- To increase awareness by providing understanding and embracement of our policy by our shareholders
